

NAVY MENACED BY ITS LOW PAY

4,660 Desertions in Nine Months and Thousands Of Resignations.

Thousands of men are deserting from the navy because of dissatisfaction with low pay, Rear Admiral Thomas Washington, chief of the Bureau of Navigation, told a Senate committee yesterday.

The situation is "appalling" and has never been equalled in the navy's history, he said.

In the last nine months, 4,660 enlisted men and petty officers have deserted, he said.

Thousands of officers are asking to be released, and less than 10 per cent of enlisted men are remaining for another period, Admiral Washington said.

The Naval Academy will not be able to rebuild the depleted officer personnel in ten years, he predicted.

"Since last July the navy has been rapidly going downhill," he declared. "Fifty-two desertions were reported last Wednesday, six the day before, and forty-nine on March 25." The American navy's peace-time pay has not been increased since 1899, while foreign navies now pay one and one-half to two and one-half times pre-war pay.

OFFICERS DIE IN HUN MUTINY

Baltic Marine Brigade, Stationed Near Berlin, In Revolt.

Berlin, April 8.—(Night)—Two battalions of the Baltic marine brigade at Doebritz camp, near Berlin, mutinied last night, killing several officers. The brigade was one of the chief supporters of the recent Kapp insurrection. It refused to disband after the Kapp movement dissolved.

Capt. Ehrhardt, commanding the brigade, claimed the fighting was between his troops and attacking Reichswehr, but this statement was denied. Members of the brigade said it was mutiny, the Reichswehr said it was mutiny.

The cause of the outbreak was not clear. Apparently it came when the men refused to follow political plans of their leaders. The mutiny was reported lead by a "Socialist council," which planned to enter politics on its own behalf. Firing continued throughout last night and day.

Meantime reports of a new revolutionary movement were current in Berlin. Revolutionary leaders were said to have adopted a resolution to dissolve the Reichstag when it convenes Monday. Authorities were seeking to prevent a repetition of the clash of January 18, when many people were killed as crowds attempted to rush the parliament building. Radicals started today an agitation for another general strike.

MILK STANDARD HIGHEST HERE

Dr. Ernest Testifies Herds In Virginia Are Best Kept in Union.

Dr. L. B. Ernest, of the Bureau of Animal Industry, yesterday declared that the District of Columbia maintains higher standards of sanitation for its milk shipped in than any State in the Union, testifying before the Walters subcommittee of the House District Committee on new milk laws for the city.

He said that the standard of Virginia herds is higher than in any other State, so that the District gets an unusually good quality of milk. Dallas Berry, of the Maryland and Virginia Milk Producers' Association, expressed the desire of his association to keep every drop of impure milk out of Washington. He declared the splendid showing of Virginia herds is due to the efforts of the District health department, which keeps a vigilant eye on milk sent to Washington.

The hearing will be continued today.

LEGION WILL ADORN GRAVES

Plans Memorial Services for Dead in Foreign Lands.

American soldiers who sleep in foreign soil will have their graves decorated on Memorial Day by their living comrades of the American Legion. Plans have been made for the co-operation of American Legion posts throughout the country in the raising of a fund sufficient to properly adorn on May 30 the grave of every American soldier and sailor buried in Europe.

A contribution of \$5 or more will be asked of each legion post. The money will be remitted to national headquarters of the legion, which has made arrangements for the organization of the legion in France and England to handle the actual decoration of the graves.

Because of the keen interest which many outsiders will probably take in the plan, it has been made possible for them to contribute if they desire. Remittances should reach headquarters not later than April 24, so that they may be sent to France and England on schedule time.

TAR HEEL MEN MAKE SUFF VICTORY SURE

Josephus Daniels, Secretary of the Navy, yesterday sent the following telegram to Mrs. Carrie Chapman Catt, 171 Madison avenue, New York:

"It is all over but the shouting. The long, hard fight to enfranchise the American women was won yesterday in Raleigh when the Democratic State Convention of North Carolina declared in favor of the amendment. The legislature of that State, shortly to be called in special session, is certain to ratify, thus giving up the thirty-six States necessary. North Carolina sends you and all co-workers congratulations and greetings."

At the time of the robbery \$700,000 in securities, cash and jewelry were stolen and all but \$150,000 worth was recovered.
